50X1-HUM

1. The VVB Holz, at Zeitz, (formerly Haether-Werk) which during World War II manufactured airplane fuselages and bearing surfaces and is now again making perambulators and other wooden industrial goods, is being enlarged again. The plant was dismantled in 1946 and has had only limited capacity. As a result of recent negotiations, it will resume making wooden and duralumin parts for aircraft in 1954. Need for the purpose has already been seasoning for three months.
2. Heretofore the plant has been able to procure machinery only with the greatest difficulty. Now the management has been promised deliveries of machinery in the shortest possible time.
